Institute Notes.
The Superintendent is completing his arrangements for the winter term, and the comfort and convenience of his community will be carefully looked after and efficiently provided for. With the sanitary improvements recently made, the health of the pupils is expected to be all that can be reasonably expected.

Rev. Mr. Burke visited the Institute last Tuesday, and spent a few minutes in each class-room. He was heartily received by teachers and pupils. The Rev. gentleman can readily converse with deaf mutes.

The foot ball match on the Institute grounds last Saturday afternoon, between the junior and senior teams, resulted in a "draw." Some of the city boys are accused of rough play, but no particular fault is found.

Uniform good health continues to prevail among the 240 pupils. A vigorous onslaught is made upon the venereal so liberally provided for in each day. The hospital is clean, and the physician makes formal visits only.

Miss Sarah Dockstead, who, on the 2nd of September, while in a convalescent state, resided from her home and fell through a culvert, on the G. T. R. in the 2nd Con. of Sidney, died on Tuesday morning from the effects of the injuries received.

The deceased came to this country from New York with her parents, who were E. E. Loyalists. The family settled in Pittsburg, and after a few years removed to lot 27, in the 1st Con. of the Township of Sidney, where the deceased lived for over 50 years.

"Aunt Sally," as she was called, was a good, kind hearted and generous woman, and possessed many amiable qualities which endeared her to a large circle of friends. Her demise is deeply regretted by all who knew her.

FALL OPENINGS.

GEORGE MITCHELL & CO.

The exhibit of this firm which was made to-day surpassed any of their previous exhibitions. From front to rear this establishment is very attractive. The windows are nicely dressed, the goods within the store are nicely arranged, and the military and marine department replete with all that is new, novel and tasty.

Fashion has been a decided variety of shape in hats and the reigning colors are also various. The "Hazy Second" is the most popular in England, and several modifications of this pattern will be given to-day. The styles now exhibited. Nearly all are imported direct from Paris and are from the establishments of such modistes as Mrs. Raymond, Miss Oulton, Miss Wainwright, and Miss Kesteven.

There is a nice show of hats in cable cord in colors. The most popular color in London is the slate gray, but it will scarcely take here, as it is too dark looking for our light, clear climate. In children's and women's headwear there is a great variety of hats and bonnets. The prevailing shapes in bonnets are small. Some very pretty corsets in chamois and silk are shown. The display of dresses, fashions, and gowns is very profuse and the colors are rich. There is a large stock of mantles, dolmans and jackets, the greater part of which are made in the city. EDITORIAL EXTRACTS.

Judge Down, of Simcoe, has been requested by Mr. Attorney-General, Mowat, to retain the chairmanship of the Board of County Judges for the province. This is a great reflection of the high character of the Judge, and a small sign of the respect in which he is held by the public. The Judge, it will be remembered, was one of the Commissioners.

On April 11th, 1876, says the *Adelphi*, Mr. David Mills prepared the report of a committee of the House of Commons, stating that if the tariff should be increased from 17 1/2 per cent to 19 1/2 per cent, the country would lose \$9,000,000 in revenue. In 1875 the tariff was increased, and now Mr. Mills is testifying to the correctness of his statement of 1876 by concluding that the revenue has grown larger. This is one of time's revenges.

The Globe has plenty of space to spare for statistics of the Anthropometric Committee of the British Association and other interesting matters of that sort, but it evidently has not room for the half-dozen lines necessary to define its position on the Customs Union project.

The W. T. A. Concert.

The Concert given by the Workington Temperance Association last evening was a grand success financially, as well as in attendance. The programme was commenced by an address from the President, Mr. H. Pringle, setting forth the benefits of temperance, and asking all present to co-operate in the good work. Then followed songs by Miss Anna O'Connell, who was compelled to respond to an overture, Browne, Allan, and Ketcheson, and Misses. Pringle, Watson, Groat, and Blain, and a recitation by Miss Jeanie Walker, all of whom were greatly appreciated and loudly applauded. The concert was closed by E. W. Sibbald. The Association desires to express its special thanks to Miss Anna O'Connell and Walker, for so kindly filling vacancies in the programme, which they did at less than an hour's notice. BARN BURNED.

About seven o'clock last evening fire was discovered emerging from the roof of a frame barn on the front of Sidney about four miles from the city. The flames had made such progress before they were noticed that nothing could be done to save the structure, with its sheds and stables, and the soon were wrapped in a sheet of fire. The barn contained over 800 bushels of barley, 300 of rye, 100 of oats, nearly 70 tons of hay, 1 mow, 2 wagons and racks, 3 sleighs and a variety of farming implements. The barn and its contents, together with the sheds adjoining, were entirely destroyed. The farm on which the barn was situated was owned by P. R. Palmer and leased to W. H. Ketcheson.

The barn and sheds were worth \$1,200, which loss falls on Mr. Palmer.

The contents belonged to Mr. Ketcheson, whose loss is \$2,500.

The origin of the fire is a mystery, as Mr. Ketcheson's household had been on the premises for some hours. Mr. K. in the morning had ejected two tramps from the building and perhaps it may have been one of that fraternity who set the building on fire, for the incendiary must have been about.

The only things saved from the building were a mow and a cultivator.

Mr. Ketcheson, who was in the city at the time of the fire, was not aware of his great loss until he was near his home.

People seeing the illumination looked from all sections of the province, some even coming over from Prince Edward to see the fire.

Mr. Ketcheson is insured in the London, Liverpool & Globe \$200 and Mr. Palmer is insured in the same Company.

The B. D. A. of O. M.

The closing meeting of the Eastern District Association of the Congregational Ministers was held last evening in the Congregational Church.

After tea in the lecture room, the audience adjourned to the main body of the church, where Rev. H. Taylor, of Kingston, gave a stirring account of his visit to the annual meeting of the American Board of Missions, the great foreign missionary society of the Congregationalists in this continent, lately held in Detroit. This was followed by a equally able address from the Rev. S. N. Jackson, M. D., of Kingston, with regard to the triumphal Column of Congregational Churches of the United States, which was at Concord, New Hampshire, which is also the great representative body of the interests of American Congregationalism, consisting of upwards of 4,000 churches.

Rev. J. A. Burton, of the Northern Congregational Church, Toronto, a visiting brother, then spoke in a very happy strain of united action among Christians, which was contained in an able and eloquent manner by Rev. D. Mitchell, of this city.

The following resolution was adopted by a unanimous vote.

Resolved, That the Eastern District Association of Congregational Ministers desire to express its pleasure at meeting in this public manner with the Belleville Congregational Church and its friends.

A beautiful address was given by Mr. Taylor, in which he spoke of the work of the church in this city, and of the work of the church in this city, and of the work of the church in this city.

After a very well chosen remarks from Mr. Taylor, in reply to this resolution, the association adjourned to meet next year at Kingston.

At an important meeting held in the Blocker St. Methodist Church, on Monday evening, it was decided by the ladies of the congregation to give one of their excellent teas on Thanksgiving Day evening, Nov. 8th.

A car barrel caught fire yesterday afternoon in the rear of the Ridley block on Campbell street and the fire department promptly responded. A great smoke was created but no damage resulted, as the fire was subdued by a goodly distribution of sand upon it.

We are indebted to the Niagara Standard for the following:—"They have taken place in the festival in Belleville now when they would raise money, on which occasion all the old superannuated mothers are brought up cheap to be used as stuffing for the pigs."

MILITARY INSPECTION.

The City Battalion Make a Fine Turnout.

THEIR MERITS RECOGNIZED BY THE INSPECTOR.

The inspection of the 10th Batt. A. I. took place on the cricket field yesterday afternoon and was witnessed by a large gathering of spectators, many of whom were ladies.

The regiment received the ground shortly after two o'clock, and the men were put through a variety of manoeuvres, in the execution of which they acquitted themselves very creditably.

About a quarter past three Col. Villiers, D. A. G., accompanied by Major King, Dr. Williams, Captain Simpson, B. Battery of Kingston, and Adjutant Powell of the 40th Batt., who acted as Col. Villiers' aides, and Captain Rigger, Paymaster of the 15th, came upon the ground.

The inspecting officer was accompanied by a general and the band of the regiment followed "God Save the Queen." A general inspection followed, Col. Villiers passing between the ranks of the companies and minutely examining their drill and manoeuvres. After that Col. Laister put the regiment through a variety of "battalion" movements.

The "break into column," "column drill," "about into line," "advance and retire by fours from right of company," "reform by company squares," "prepare for cavalry," &c., &c., were well executed and called forth expressions of approval from many who were competent to judge of such manoeuvres.

After engaging to skirmish, a company parade followed and the names of each volunteer were called off by Major King. Major Henderson sent the battalion through the manual exercise, the drill in which the men did remarkably well. The regiment was again formed in column, when Col. Villiers addressed them. He said he told them when he last inspected them that he was satisfied at the proficiency shown by them and he would have to repeat what he had said on that occasion. Now he could say there was no talking of spitting in the ranks, practice was very much diluted. The volunteers did the best they could to come up to the standard of regulars, and although the volunteers perform only twice daily drill in the year, they are certainly deserving of great credit for the proficiency they displayed.

The men of the 10th had shown that they paid attention to their drill, and he was glad to know that since his last visit four of the officers had gone through a course of instruction at the Academy. What he had seen was well done and very satisfactory, and was even an improvement on what he had seen when last here. He urged the non-commissioned officers to learn their work thoroughly and asked Dr. Williams to inspect the battalion. After having made two thorough inspections of this battalion, he remarked that he was surprised a city like Belleville did not have a drill shed. "Why, hang it all," said he "if there was a row here such as there was in some years ago, you would have to call upon you, being a city battalion, and you would be running around for your arms." He trusted Col. Laister would use his efforts to have a drill shed erected here and he would do all he could to assist him. (Applause.)

Three cheers were given for Col. Villiers, three and a tiger for the Queen, and the battalion then returned to the armory, where they were dismissed.

RITES.

The turnout was one of the most creditable that the battalion has ever made.

While going to the ground, Col. Villiers was thrown from his horse and dragged a short distance. Fortunately he was only slightly injured.

Major Dunne's horse tried hard to dismount its rider, but did not succeed in doing so.

Col. Laister's horse became frightened by the clashing of the arms, and although inclined to be fractious, the Col. retained his control over the animal and was able to go on with the command.

Major Henderson, mounted his stand and during the "march past" broke the ranks twice—although his horse is an old campaigner.

The school children were allowed to go to witness the parade after the afternoon recess.

The police assisted in keeping the crowd of soldiers from the top of the City Hall tower.

The day was anything but a pleasant one for an inspection, as the air was cold and raw.

The boys who were on the ground were very mischievous and annoyed the sentries greatly.

The Market Committee approved of the payment of the following: J. C. Keith \$3.46 and W. Alfred \$2.00. They also announced that they had ordered a furnace from C. F. Smith, at a cost of \$110.00.

THOMAS L. BAYBUTT
 A CHALLENGE.
 I DO not wish to make myself ridiculous in the eyes of an intelligent public, by claiming for myself a preference even, or asserting that I sell cheaper than any of my competitors, regularly established, who buy their stock direct from the manufacturers, and sell the same at a legitimate profit; but this I do assert most positively,
I WILL NOT BE UNDERSOLD
On any city costs, and as a guarantee of my good faith I hereby agree to refund the money paid for any article purchased in my store to any person buying the same, when

I give my whole attention to my ONE Shoe and make my patrons *temporal* and *eternal* satisfaction. Surely the ten years of practical experience I have had in the manufacture and subsequently five years engaged exclusively in buying and selling Boots and Shoes enable me now to select the BEST MARKETS whereto to purchase AT MINIMUM PRICE the requirements of my numerous patrons.

My Fall and Winter Stock is now complete in every department. I have this special grade (the *Trident*) of *Boys' and Girls' hand* Suede Shoes. A unusually large assortment of Children's *Monks, Yousies, Hops, Ladies' and Gent's* Comfortable Winter *Homeslippers*, which can be seen in my windows at the

CORNER SHOE STORE.
T. L. BAYNE.

NOTICE THE DIFFERENCE

THOSE who buy entirely for Cash and ask no credit. They spend their money where they can get the best value in return. This probably accounts for the very large trade we are now doing in all our three stores, while others who sell credit and ask large prices are complaining of the dunes

HOW WE EXPLAIN IT.

It is not true that one dealer can sell as low as another. Goods must be bought low to be sold low.

WE SELL TEN PER CENT CHEAPER

Since we opened three Stores than when we had only one, cause by handling large quantities we are able to buy near all lines that much less. Our rapidly increasing trade shows that the public recognize this fact.

FALL STOCK NOW COMPLETE
